

Daggett County Newsletter Candidate Addendum

Dear Readers,

The June issue of the newsletter, I ran an ad for Jerry Steglich, who was running for Commissioner B. I ran the ad without checking with Commissioners Perry and Blanchard to see if this was appropriate or allowed. I wondered about it at the time but didn't do the due diligence to find out the answer because of a tight deadline that I was working under. I found out as soon as the newsletter was published that I had made a huge mistake. It is against County Policy for the Daggett County Newsletter to run any political advertising in the newsletter. Even though I was not the editor at the time this policy was written, I should have known better because my "gut" instinct told me it wasn't fair or right. Just to set the record straight, Jerry Steglich did pay for the ad.

I have solicited the other candidates running in the primary to let me run their ads, free of charge, to try and set the record straight. In the attached pages are their views and stands on issues relating to their candidacy for Commissioner. Please take the time to learn about these candidates, as I feel like they all have something very valuable they are offering to the county.

I take full responsibility for this issue and I hope that you, the readers, will forgive me. I feel like I have let you down by not creating an unbiased atmosphere in the Newsletter. I do care a lot about the county and never wanted this to happen. This is home for me and will always be home even if I am not here.

Sincerely,

Tamara Twitchell

Vote for Ryan

“Find Solutions, Not Blame“

“Building Bridges across the Gorge”

Financial Stability, Responsible Growth, Capital Reserves

- We must know the return on any county investment.
- As we grow, it should benefit all residents.
- A portion of all revenue should be saved for a rainy day.
- Create a culture of Accountability

Every dollar that the county has come from someones hard work. This is a great responsibility, one that I have the utmost respect for.

Open Door, Equal under the law, One County

- I try to “seek first to understand.”
- I will uphold the law, and use the law to benefit, not debilitate residents.
- I will work hard to build relationships or “bridges” across our geographical divide.

I am passionate about working together. I believe EVERYONE has something to contribute! We will all thrive together or merely survive together. The choice is ours. The prosperity of the county is directly correlated to the prosperity of each individual family and business! Each person has a unique situation and personality. We must honor ALL and uplift and encourage each other to succeed.

Build Local Business Together, Lighten the Load, Return to the Gorge

- We need to create a culture where local business feels supported.
- Many hands make work easy. Cross selling helps everyone succeed.
- We need to take care of the guests that come to are county.

I have created a great business model with a track record of return clientele. There are other business in the county that have done the same. We need to share these ideas and models to help all businesses succeed. Helping our local businesses succeed is the easiest for the county to grow and be prosperous.

Lastly, thank you for reading this and allowing me to share my thoughts. I look forward to having an opportunity to contribute and represent all the residents in our county.

With appreciation,

Ryan Kelly

greenriverflyfisher@gmail.com

To Whom it may concern,

Ryan Kelly is a wonderfully talented person. One minute, he can be ripping it up on the mountain, carving a turn so low to the hill that his hip almost touches the snow, and the next minute, he can be giving council to a mother that is concerned about her daughter going on the lift for the first time. His soft approach and soft voice is a great talent, while the next minute he can be a strong voice to any one instructor needing immediate redirection - all with the end result, objective, to edify each person.

I have had the opportunity to work closely with Ryan the last 13 winters and have been fortunate to witness a kind leader in Ryan. He truly cares for those he has any stewardship over and for anyone touched by that responsibility. Ryan has been a snowsports supervisor for many years at Sundance and has assisted us in taking our operation to a more professional level in our teaching, methods and in operational efficiencies. This is not an easy task given we have over 100 instructors, each with their own story to honor and possibly redirect in some way, for them to truly become professionals.

I have been the Director of Mountain Operations at Sundance resort, responsible for all mountain operations, and have found Ryan always making a great contribution to the Snowsports end of our guest service experiences. I presently have moved to the position of Snowsports Director, thereby having an even more direct connection to this operation and Ryan's contribution, which is much.

I have also had the opportunity to represent the United States as a 14 year member and 8 year coach of our National PSIA Demonstration Team. We have travel many places around the world training other trainers. This have given me a deep appreciation for those individuals that can not only teach, but can also lead and assist others in becoming better at their trade. Ryan is one of those very talented individuals.

Ryan would be an outstanding choice for any position that would allow him to take an operation and stimulate others, all to a higher level, while respecting each individual effected by this great responsibility.

I would love to recommend Ryan, and also be available if needed, to share more information on his quest to serve others in valuable ways going forward.

Jerry Warren
Sundance Snowsports Director
Jwarren@sundance-utah.com

Jerry Warren has been instrumental in shaping the Utah snowsports industry into a world wide Mecca. He has served on numerous boards nationally and locally. He is a legend in the snowsports industry. I am honored and humbled by his kind words.

Thank You Jerry

Dear Daggett County Resident,

My name is Clyde Slaugh and I am running for the position of Daggett County Commissioner "A". I would like to share a little of my background, experience and perspective on the needs of our county and hope that if you agree, you will vote for me in the upcoming election. The Primary Election is June 24, 2014. Please vote.

• **Background**

I am a lifelong resident of this county. My wife, Carol, and I have had the privilege of raising nine children in this beautiful area and the county has served us very well. I, in turn, feel it is my time to give back to the county and I am asking for your vote so that I may have the opportunity. I am willing to learn and do anything and everything necessary to maintain the good things we have and expand and utilize the resources we have for increased financial stability, which will benefit citizens of the county.

• **Experience**

I have been employed with the Daggett County Road Department for 37 years, being Road Supervisor for 20 of them. In this capacity I have gained an insight into many of the county operations and endeavors. I have worked closely with numerous commissions in creating and managing the road budget. I have a working understanding of the budget process. I am strongly committed to executing and maintaining a well defined budget for the entire county. Financial responsibility in all areas is a goal of mine.

• **Perspective**

Economic Development: I will look for ways to support already existing business and bring into the county other entities, which will enhance economic development.

Dutch John: I support the right of the citizens of Dutch John to vote on the issue of incorporation.. If the residents vote in favor of incorporation, then as a county commissioner, I will do everything in my power to honorably facilitate the transition process. If the citizens vote to remain a part of the county, I will work to generate increased trust in decisions made by the county commission relative to the needs and bests interests of Dutch John.

• **Respect** Thank you for reading this letter. Please feel free to contact me and share ideas or concerns. I will always listen and will, to the best of my ability, work with each of you.

THANK YOU

I would like to express my deepest thanks to Commissioner's Karen Perry and Warren Blanchard who have offered to try to correct a wrong and allow a political ad to all other contestants for Daggett County Political Offices that were not allowed a chance to post a political statement in the latest Daggett County News.

During the election cycle two years ago the Daggett County Commission passed an ordinance prohibiting the placing political adds in the County Newsletter. This ordinance was voted on unanimously and is still in effect.

As there is still an ordinance prohibiting the issuance of Political Ads in the County Newsletter - I will not be using Daggett County resources to campaign under these special conditions. A mailer with my views and information about me has been sent to everyone instead.

Thanks for your support and please remember to VOTE!

Jack Lytle

Candidate

Daggett County Commissioner "B"
