Free E-Learning Courses

Alzheimer's disease doesn't come with an instruction manual, but E-Learning courses can help.

Know the 10 Signs: Early Detection Matters

The warning signs of Alzheimer's disease are often dismissed as side effects of normal aging. If you or someone you know is experiencing memory loss or behavioral changes, it's time to learn the facts. Early detection gives you a chance to begin drug therapy, enroll in clinical studies and plan for the future. View this program to learn the 10 Warning Signs of Alzheimer's disease. We'll separate myth from reality and address commonly-held fears about Alzheimer's in America. Hear from people who have the disease and find out how to recognize the signs in yourself and others.

The Basics: Memory Loss, Dementia and Alzheimer's Disease

If you or someone you know is affected by Alzheimer's disease or dementia, this is a great place to start. This program provides information on detection, causes and risk factors, stages of the disease, treatment, and much more.

Legal and Financial Planning for Alzheimer's Disease

The diagnosis of Alzheimer's disease makes planning for the future more important than ever. Legal and Financial Planning for Alzheimer's Disease is a two-part program where you will have a chance to learn about important legal and financial issues to consider, how to put plans in place, and how to access legal and financial resources.

Living with Alzheimer's for People with Alzheimer's

The diagnosis of Alzheimer's disease is life-changing and leads to many questions. What will this mean for me and my family? How do I plan for the future? Where can I get the help I need? In this three-part program, you will hear from others who have been where you are. You'll learn what you need to know, what you need to plan, and what you can do as you navigate this chapter of your life.

Living with Alzheimer's: For Caregivers: Early Stage

In the early stage of Alzheimer's disease, families face new questions as they adjust. What does the diagnosis mean? What kinds of plans need to be made? What resources are available to help? This 3-part program provides practical answers to the questions that arise in the early stage. Hear from those directly affected and learn what you can do to cope with the changes that come with an early-stage diagnosis.

Living with Alzheimer's: For Caregivers: Middle Stage

In the middle stage of Alzheimer's disease, those who were care partners now become hands-on caregivers. Join us for this 3-part series and hear caregivers and professionals discuss helpful strategies to provide safe, effective and comfortable care in the middle stage of Alzheimer's.

Living with Alzheimer's: For Caregivers: Late Stage

In the late stage of Alzheimer's disease, caregiving typically involves new ways of connecting and interacting with the person with the disease. In this 2-part series, you'll hear from caregivers and professionals about resources, monitoring care and providing meaningful connection for the person with late-stage Alzheimer's and their families.

Living with Alzheimer's For Younger-Onset Alzheimer's

When someone under 65 is diagnosed with Younger-Onset Alzheimer's disease or related dementia, the first reaction is often shock or denial. This doesn't happen to someone so young...does it? What does the diagnosis mean? What kinds of plans need to be made for everyone? What about work? What resources are available to help? Join us for this program to get answers to the questions that arise for people concerned about Younger-Onset Alzheimer's disease or a related dementia. Hear from those directly affected and learn what you need to know, what you need to plan, and what you can do to ease the impact throughout the course of the disease.
